

ENMT482 2018 Manipulators lab assignment

Tuesday 18 September

Brief introduction to the general task for the lab/assignment. We'll also cover some preliminary health and safety for the Robotics Lab. As this lab intro should only take about 20mins, we will split the class into 3 smaller groups so everyone can see and hear.

The groups/times are below. If you need to swap, please just talk to someone else in the class in another group and swap – you don't need to let me know. Just as long as we don't end up with everyone in one group!

09:00 - 09:20	09:20 - 09:40	09:40 - 10:00
